

Summer Green Team Climate Care: 12 weeks Questions to Ponder and Act Upon***Week 6 of Summer Creation Care: Communicating faith and climate***

As Christians, God calls us into a journey of sacrificial, transformative discipleship in order to become more like Christ. To respond faithfully and compassionately to the suffering caused by the climate crisis is to participate in this journey. One of the most effective ways to encourage other people to care for climate is by sharing your own climate “testimony.” Communicate the values you hold as a person of faith and share how caring for our climate strengthened and helped deepen those values.

Question to ponder and act upon:

- Share a story of a time when you heard or experienced something surprising or captivating about caring for our climate/creation. How was it interesting to you? What changes did you make after experiencing or learning about it?
- Share how caring for creation and climate has affected your relationship with Christ Church or your local community. In what ways were those relationships enriched? Were new connections made?
