

Summer Green Team Climate Care: 12 weeks Questions to Ponder and Act Upon***Week 2 of Summer Creation Care: Rooted in Place***

God's first instruction is to watch over and take care of the earth (Genesis 2:15). We do this well by spending time getting to know the places we are rooted.

Questions to ponder and act upon this week:

- (1) What would rooted caretaking look like in our lives and in Christ Church?
- (2) In what ways do we commune with God?
- (3) And in what ways does God enable us to show care and love toward our neighbors, both personally and as a church?
